Mrs. Blum,

Thank you for being such a great teacher. I can't believe I've had you for 4 years!! You have seen me grow up and mature, and have helped me along the way. I always looked forward to your class because I knew we would be doing something interesting and I knew I would always be laughing. Thank you for being a great travel buddy and setting up the Europe trip, because that trip changed my life. You have been one of my favorite teachers in all my time in elementary, middle, and high school. Thank you again for being a person I can go to without fear and talk about anything. Love ya!!!! Thanks again for everything, and I'll be coming back to Minster to visit:)

Lauren Mox

Mrs. Blum,

Thank you for making the start of the school day great for the last four years. I wouldn't have wanted any other class first period. Thank you for always pushing us to do better. Thanks for always coming up with fun and helpful activities and games to further our learning. Finally, thanks for putting up with our constant shenanigans!
